

## WILL RETALIATE.

CARNEGIE'S MANAGERS TO BE ARRESTED FOR MURDER.

## THE LATEST MOVES AT HOMESTEAD.

The Men Say They Have No Fear as to the Result of the Coming Investigation, but Think It Will Go Hard With the Carnegie People—Home-stand in a State of Excitement—Alarming News.

HOMESTEAD, Pa., July 19.—Gossip about the latest move on the part of the Carnegie company ran wild yesterday and the people familiar with the case freely expressed their opinion. A few pronounced the move as well founded, backed up by the legal advice of the firm's counsel. However, a great number said it was a shrewd move to get the leaders in the strike out of the way at a time when the company expects to begin operations, as the remainder of the workmen would be deprived of the advice and leadership of the men in whom they have had confidence ever since the trouble began.

To show that the workmen had no fear about the results of the case Burgess McLuckie as soon as the news reached him sent word to Alderman McMasters that he would come to the city and surrender himself. A report was started that counter informations are to be made against H. C. Frick and Secretary Lovejoy and the general impression is that this is only the beginning of the legal struggle at Homestead.

There was considerable conjecture as to whether any of these defendants would have to remain in jail or not until the grand jury sits in September. An attorney said the court could release them on bail, the amount of which would be determined by the evidence as to the character of the offense and the culpability of the defendants. In case Messrs. Frick, Lovejoy and Potter are arrested they will be compelled to go to jail or be released in the same way. Alderman McMasters said last night that he expected informations to be made against the managers.

The constables returned from Homestead last evening empty handed. They were unable to find any of the accused and will go up again to-day. A short time after Burgess McLuckie appeared at Alderman McMasters' office and announced that he was ready to answer the charge of murder preferred against him. The alderman then had a commitment issued against him and he was placed in jail. To-day his attorneys will go before the court and ask for his release on bail.

Later, as if by magic, all of the accused except O'Donnell, who was said to be out of the state, and John McLuckie, who had already given himself up at Pittsburgh, assembled at the railway station in Homestead, intending, unaccompanied by officers voluntarily to proceed to Pittsburgh to face the charges against them. After the departure of the Pittsburgh officers the information was quietly conveyed to the accused men by Thomas Williamson, a member of the advisory board, and few outside of the accused themselves knew at the time that the little group of a dozen or more leaders gathered at the depot meant. Their departure was stopped almost at the last moment. Legal advice to quietly await any call at their homes is the reason assigned by the strikers for their change of programme.

Before going to jail Mr. McLuckie said he courted a thorough investigation. The other defendants, he said, had not left the city to escape arrest, and all but O'Donnell would be on hand to-day.

"We propose," said he, "to give Mr. Frick a dose of his own medicine, and informations against the officials of the company are now being prepared."

Non-Union Men and Detectives.—PITTSBURG, Pa., July 19.—Homestead is filled with detectives in the employ of the Carnegie company. Their mission seems to be to watch the men and bring influence to bear on the men composing the rank and file of the locked out men and mechanics. As the latter visit this place it can be said they are not succeeding to any notable degree. As to the leaders, they say they do not care how many detectives the company may employ to watch them.

The town is also filling up with non-union workmen. To deny this would be to deny the truth. Every train brings unprincipled fellows into the place. These men can come for no other purpose than to "work" the strikers for a \$5 or \$10 bill and free tickets to eastern cities. Homestead is certainly becoming the Mecca for tramps, who represent themselves as non-union workmen, but are willing to get out of town again if the strikers will give them a little cash and free railroad tickets.

Braddock Works Shut Down.—PITTSBURG, Pa., July 19.—The Homestead steel workers' strike has indirectly caused the indefinite suspension of the Braddock wire works plant at Rankin station, and 600 men are out of work. The mills, nail, rod, barbed wire and wire drawing departments have all closed down owing to a lack of steel billets to make wire rods, etc.

Governor Pattison Goes to Homestead.

HARRISBURG, Pa., July 19.—Governor Pattison and staff left at 12:30 this morning for Homestead in a private car attached to the western express. The governor will return the latter part of the week.

## Labor Riot in New Jersey.

NEW BRUNSWICK, N. J., July 19.—The rioting has broken out afresh among the Hungarian railroad laborers at Woodbridge. The Reading railroad officials have notified Sheriff Ackler of Middlesex county that the rioters are destroying railroad property and that the local authorities have been overpowered and are unable to handle them. Sheriff Ackler has just dispatched sixty deputies to the scene of the trouble.

## Will Assist the Railroad Men.

ST. JOSEPH, Mo., July 19.—A mass meeting of the societies of railway trainmen, locomotive engineers, firemen, conductors, telegraphers and switchmen yesterday passed resolutions pledging assistance to railroad employees of the country who are refusing to handle freight for Homestead or the product of Carnegie's mills. The resolutions were at once wired to Pittsburgh.

## WAR NOT ENDED.

The Condition of Affairs in Idaho Said to Be Alarming.

WALLACE, Idaho, July 19.—The condition of affairs in the Coeur d'Alene continues to be alarming. There seems to be a conviction settling down that there is on foot a scheme of an aggressive character on the part of the miners' union, though as to what this move may be opinion is divided. The general opinion is that large numbers of miners, union men, are coming into the Coeur d'Alene from Montana by way of Thompson Falls.

The Gem mine will start up with a full force of non-union men to-night and the Frisco will start also with non-union men. A squad of twenty-five regulars started up the Nine Mile canyon yesterday morning. They will camp up there.

The strikers in the mountains have sent down word that they intend to carry on a guerilla warfare. This warfare would be terrible. The troops and towns are down in the canyon at the mercy of the strikers on the sides of the mountains. This move has been expected for some time. Prompt action on the part of the troops in cutting off supplies from the strikers, thus forcing them to come down out of the mountain would shorten the fight.

## ALICE MITCHELL'S CASE.

Placed on Trial for the Murder of Freda Ward.

MEMPHIS, Tenn., July 19.—On January 26 last Alice Mitchell killed Freda Ward, the details of which were most shocking and were gloated over by the unseemly and discussed by the psychological student. Yesterday her case was brought up in court before Judge D. Abbot. It being to prove or disprove her insanity. Dr. Callender, an expert on insanity cases, who was called upon to testify in the Charles Giteau case, after he slew President Garfield, is expected to be the mainstay of the defense, he having during the past few months made a most searching examination of Miss Mitchell's case. The only witness who testified was Mr. George Mitchell, father of the accused. The jury selected is undoubtedly one of the most intelligent ever gathered in West Tennessee.

## Saw Father and Lover Die.

DEADWOOD, Id., July 19.—Wood ranch, eight miles from here, was the scene of a double murder yesterday. A young man named Goody has been keeping company with the daughter of E. L. Wood against the father's wishes. He went to the ranch yesterday and became involved in a quarrel with Wood. Suddenly Wood drew a revolver and shot Goody in the head. He fell, but drew his revolver and shot Wood in the head. Wood lived two hours and Goody one hour. The girl saw the fight and it is feared the sight will cause her death.

## A Salina Jack the Ripper.

SALINA, Kan., July 19.—A man with methods somewhat like those of Jack the Ripper, has made his appearance in Salina. Mrs. Belle Moninger, a woman of bad repute, was attacked by him last night and several ugly cuts inflicted. She says the man came to her house late and began to quarrel with her. Finally seizing her he began to stab her with a knife. He inflicted five large cuts in her face and shoulders, leaving her unconscious. He has not been captured yet and there is no clue to his identity.

## Confessed His Guilt.

MEMPHIS, Tenn., July 19.—Doc Davis, a notorious negro tough, charged with outraging Miss Olla Maddox, a 15-year-old white girl, was taken from a deputy sheriff while on his way to Deatur jail last night and lynched. Davis assaulted Miss Maddox Saturday, and kept her tied to a tree in the swamp for twenty-four hours, when she was found in an unconscious condition. Davis confessed his guilt.

## John W. Harman Dead.

## THE MILLS RUNNING

NON-UNION MEN AT WORK AT HOMESTEAD.

## FURNACES STARTED YESTERDAY.

One Hundred and Fifty Men at Work and Others Being Brought In—Ben Butler and ex-Governor Hoadley to Defend the Strikers—Twelve Hungarian Strikers Killed by the Military.

PITTSBURG, Pa., July 20.—An Associated press representative made a tour of the Homestead steel mills yesterday. He found about 150 men at work, most of them new employees. Four furnaces in the armor plate department were charged yesterday and a complete resumption in this department will take place to-day. The melting department has been fired up, but it will take seven days to get this branch of the mill running again.

A large number of colored men arrived in Pittsburgh yesterday and visited Mr. Frick in squads. They carried satchels and were evidently strangers in the city. Their ultimate destination is supposed to be Homestead.

It is quite probable that the force of the national guard on duty at Homestead will be reduced within a week. Should there be no further breach of the peace the third brigade will likely be ordered home by the end of this week.

The organization of the workmen employed at the Duquesne steel works of the Carnegie steel company into the Amalgamated association lodges has not yet been completed, but the officers of the association are hopeful that it soon will be.

## GREAT LEGAL FIGHT.

Ben Butler and Ex-Governor Hoadley Will Defend the Strikers.

PITTSBURG, Pa., July 20.—The locked out men at Homestead propose to make a great legal fight for the acquittal of the persons against whom informations have been made. They have secured the services of General Benjamin F. Butler and ex-Governor Hoadley of Ohio, who will be here to defend the men. It is now believed that O'Donnell's eastern mission was to confer with General Butler at his home in relation to the legal complications and incidentally the political end. Ex-Representative Cox, who came to Pittsburgh with persons representing \$50,000 to bail Burgess McLuckie, told several persons that application would be made to cite the case into another county if it was thought necessary. The men are waiting for advice from their attorneys before making information against Carnegie officials.

## LABOR RIOT IN HUNGARY.

The Gendarmes Shot Down Twelve Men Before Order Is Restored.

PESTH, July 20.—A band of 180 reapers, men and women employed at Bebar, Hungary, struck yesterday for an increase in their wages. When their demands were refused they seized a wagon loaded with corn declaring that that would be a fair share of the profits.

The farmer who had hired the reapers and saw he could do nothing to prevent their taking anything they pleased summoned the gendarmes to restore order and get back his property.

The gendarmes were soon at the scene of the disturbance but their presence at first did not frighten the strikers, who were becoming more riotous in their demonstrations. They threatened to burn the farmer's house and to lay waste his fields if he did not comply with their demands. They even went so far as to threaten the gendarmes if they interfered.

Finally the outlook became so serious that the inspectors commanding the gendarmes saw that prompt and heroic measures must be taken if order was to be restored.

He gave the command to fire to his men and they promptly obeyed and poured a volley into the riotous reapers.

Twelve men and women were killed and many were wounded before the mob was driven from the place.

## MISSOURI CROP BULLETIN.

Heavy Rains in Sections Have Damaged Grain in Stack.

COLUMBIA, Mo., July 20.—The weather crop bulletin of the Missouri weather service for the week ending July 16:

"The deficiency in temperature for the week ranged from four in the south to six degrees in the north portion, while the rainfall, which was confined to a series of heavy and badly distributed showers, gave an average of excessive deposit only in the central and south central portion of the state. A few scattering counties in the north and west also report heavy showers."

"The general conditions, while favorable to growing crops, have been detrimental to haying, harvesting, stacking and threshing. A large amount of hay, oats and wheat is reported injured or spoiled by rain. Much wheat is reported as sprouting in the shock or stack. Early corn is generally fair, clean and laid by, but the late plant is needing work generally and rain in many sections. What wheat has been

thrashed yields fair. Oats are generally poor and affected by rust. Potatoes are coming on fairly well, but considerable rot is noticed. Fruit of all kinds is very light. General wind storms on the 13th and 14th, with heavy rains and some hail on the 15th and 16th, did considerable damage."

## ANTI-PINKERTON BILLS.

Mr. Bröderick Introduces One Measure and Mr. Oates Holds Another.

WASHINGTON, July 18.—The special committee appointed to investigate the Homestead labor troubles, of which Mr. Oates is chairman, will probably have a formal meeting to-day, but it is expected nothing will be done. The adjournment of congress is a factor in the proceedings of the committee. Mr. Oates says that if congress should continue in session next week he would summon the Pinkertons before the committee and close out the investigation by interrogating them on the workings of their system. If, however, a very speedy adjournment be likely, he will make a report on the testimony as thus far taken.

Mr. Oates has made a draft of a bill which he will introduce on the subject of the Pinkerton system. He will not press its consideration, however, until the Pinkertons are heard, as he does not intend to take snap judgment on them.

In the house yesterday Mr. Bröderick of Kansas, a member of the judiciary committee investigating the Pinkerton system, introduced for reference a bill to prohibit the transportation from one state to another of a private or voluntary police force or body of armed men not belonging to the military or naval service of the United States or to the militia of any state or territory.

## CLEVELAND WRITES AGAIN.

This Time in Reply to a Chicago Single Taxer on the Tariff.

CHICAGO, July 19.—Ralph A. Hoyt of California, now temporarily living here, recently wrote a letter to ex-President Grover Cleveland touching his endorsement of the tariff plank in the Chicago platform. He is an old time Republican, but now a single taxer, who will support the Democratic ticket on the ground of the tariff reform, and in his letter he expressed the hope that the candidate for president would see his way clear to endorse without qualification the anti-protection plank in the Chicago platform. No answer was solicited or expected, but to-day Mr. Hoyt received an autograph letter from Mr. Cleveland, of which the following is a copy:

GRAY GABLES, BUZZARD'S BAY, MASS., July 14, 1892.—Ralph E. Hoyt, esq.—My Dear Sir: Your letter of July 2 is at hand, and I am exceedingly gratified to learn of your intention to support the principles and candidates of the Chicago convention. I think no sincere advocate of honest tariff can be dissatisfied with the position the Democratic party has assumed on that subject, and I am sure none need fear that the contest will not be made on the lines laid down, which have already proved to be so acceptable to the great majority of the people. Very truly yours,

[Signed] GROVER CLEVELAND.

## No Attempt to Start the Mills.

HOMESTEAD, Pa., July 18.—Except soldiers, clerks, officials and foremen, not a soul entered the steel works yesterday, and long after the hour when a repair force would under ordinary circumstances have been at work not a sign of smoke arose from any of the smokestacks, and, except for the passage of the Fourth regiment through the mill grounds from across the Monongahela river, to do guard duty in town, not a sign of life was visible beyond the offices.

Captain Frank C. Calhoun, foreman of Leveore's undertaking establishment and an old soldier, was fatally stabbed in the abdomen with a bayonet yesterday by David Lester, a private in the Fourteenth regiment. Lester and a companion named Hook were intoxicated and tried to force their way into Devore's room, when Calhoun interfered. A wrangle ensued and Lester ran his bayonet into Calhoun's abdomen. Lester and Hook are in jail. Calhoun is still living but cannot recover.

## THE LINE OF LAKES.

The above name has been applied to the Wisconsin Central Lines on account of the large number of lakes and summer resorts tributary to its lines. Among some of the well-known summer resorts are Fox Lake, Ill., Lake Villa, Ill., Waukegan, Waukegan, Cedar Lake, Neenah, Waukegan, Fishel, Butternut and Ashland, Wis. These lakes abound in numerous species of fish, such as black bass, rock bass, pickerel, pike, perch, muskallonge, while sportsmen will find an abundance of game, such as ducks, geese, quail, snipe, etc. In the grandeur of her scenery, the charming beauty of her rustic landscapes and the rare perfection of her summer climate, the State of Wisconsin is acknowledged to be without a peer in the Union. Her fame as a refreshing retreat for the overworked, careworn inhabitants of the great cities during the midsummer months, has extended southward as far as the Gulf of Mexico and eastward to the Atlantic.
